

Now that you are a team, it is time to get to know you better. Does anyone know how to use graphics software? Or to develop software? Is there a computer whiz among you? Who is introverted? Who knows how to whistle? Don't be afraid and try to share all your skills. They are gonna be precious!

Soft Skills

Soft skills are non-technical skills. They include the way you interact with companions, solve problems, and manage your task.

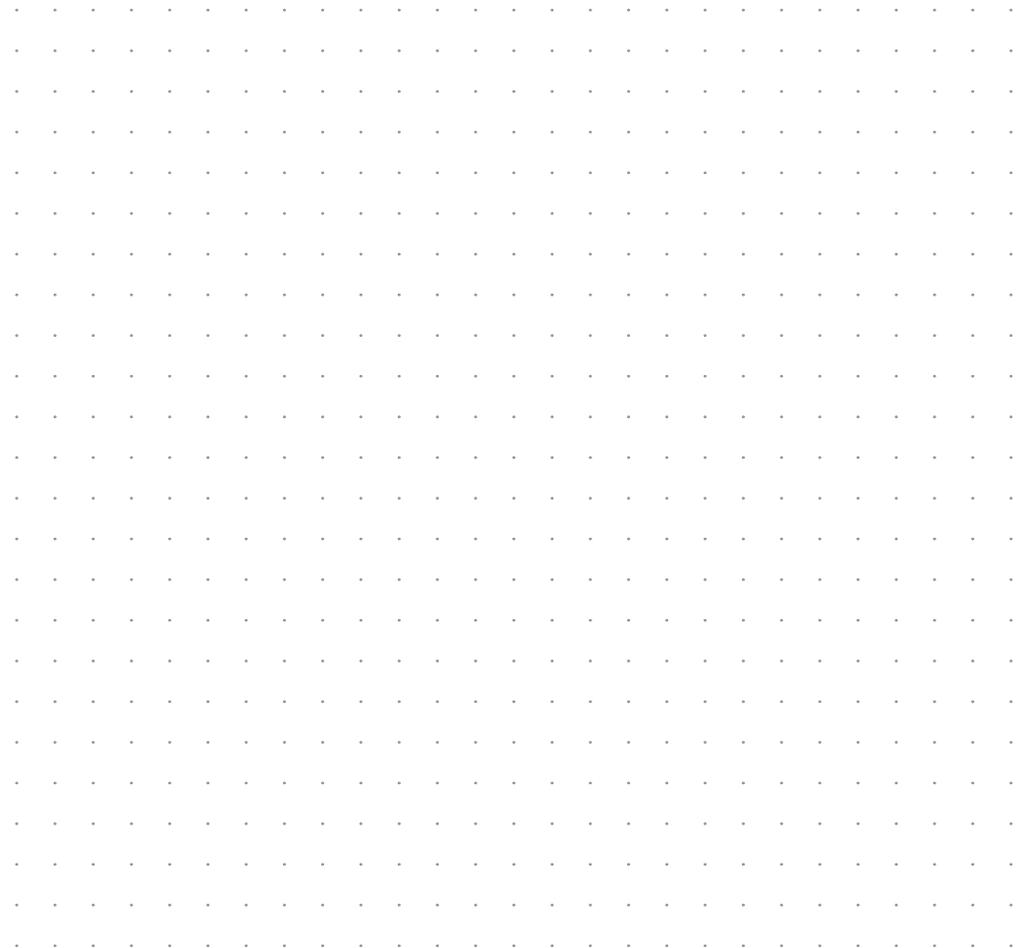

POSITIVITY
Anne

Ex. Adaptability | Communication | Creative thinking | Teamwork | Positivity | Time management | Motivation | Problem-solving | Critical thinking | Conflict resolution | Resilience...

Hard Skills

Hard skills include the expertise required for an individual to successfully accomplish the task. Hard skills are acquired through education and training programs.

Ex. Content Creation | Drawing | Foreign Languages | Graphic Design | Hardware | Management | Marketing | Software | Social Networks...
